

# ***Interactive Exhibit Considerations***

- **Interactive does not always equal “hands on”**
- **Is it intuitive --- can people use it without reading a label?**
- **Does it need to be reset?**
- **Is it worth doing again?**
- **Does it provide an “aha”?**
- **Does it reinforce content, or is it merely clever?**
- **Does it use simple, maintainable (durable) materials?**
- **Can multiple people use it?**
- **Does it foster communication and cooperation?**
