

## OUR MISSION

Museums and cultural centers are the heart of their communities. They keep our collective memories and treasures safe—protecting, preserving, and sharing them for generations to come.

Museums also act as community centers, event spaces, hubs for learning, and essential economic engines for their cities and the state.

As the statewide museum association, we strengthen museums and cultural centers through funding, advocacy, professional development, information sharing, and networking.

**We support every museum and cultural center in Alaska from Utqiagvik to Ketchikan and Unalaska and everywhere in between.**

Just as museums and cultural centers serve their communities, it is Museums Alaska's job to serve them. Because when we strengthen them, they strengthen their communities.

We've been doing this important work since 1983. Please join us in our work!
